

P/N 54-1088X/75-1088X

2006 GM Duramax LLY/LBZ Cold Air Intake Systems

The Complete Air Intake Solution for 2006 Chevrolet & GMC LLY & LBZ Duramax

Torque Booster Tube (54-10889) used with the Stage 1 or stock airbox replacing the stock intake tract.

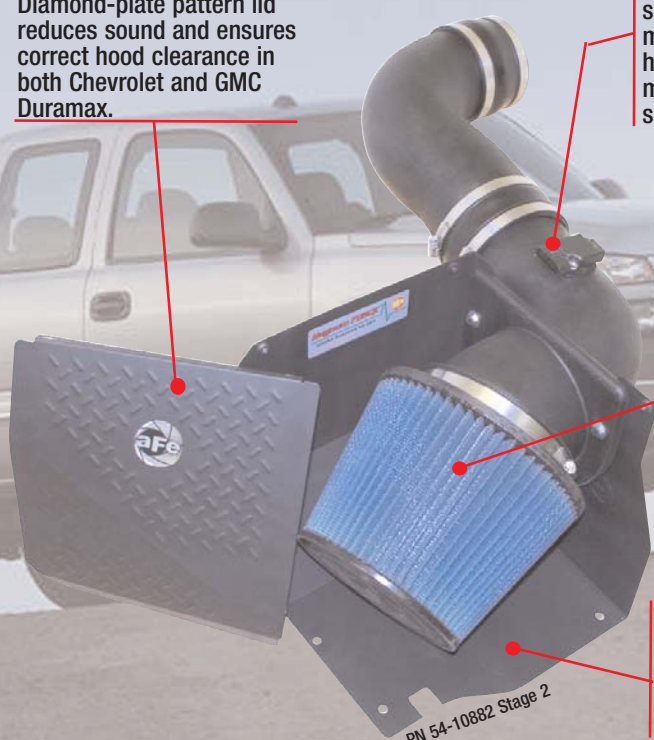

Diamond-plate pattern lid reduces sound and ensures correct hood clearance in both Chevrolet and GMC Duramax.

Tapered molded tube smoothly transitions from massive air filter to turbo housing and incorporates mounting pad for stock MAF sensor.

Stage 1 Cold Air Intake System (PN 54-10881) replaces the stock air box but retains stock intake tract for quick installation.

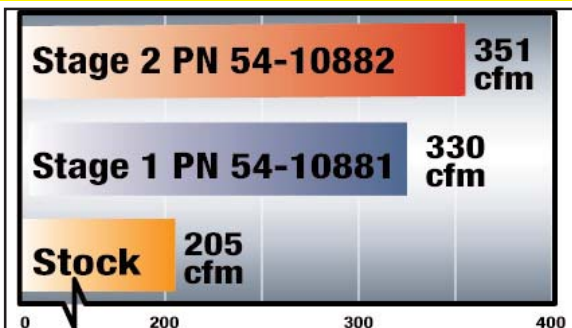

High performance 6" washable/reusable air filter for increased airflow and dust holding capacity. Also available with Pro-GUARD 7 Technology.

Rugged 16 gauge powder-coated housing blocks out power robbing engine heat and protects the air filter from the elements.
