Go Industries' Rancher grille guard is a one-piece, fully welded application that provides maximum front end protection for the headlight and grille areas of your truck or SUV. Easy, no drill frame mount installation is designed to utilize existing holes in the frame for extra strength and rigidity with no vibration and retains tow hooks on all applications. Each guard uses a heavy-duty 14-gauge steel tubular outer frame and an 18-gauge steel grille protects the radiator. Available in either black or hammerhead powdercoat finish with black epoxy primer with a three-year warranty on our workmanship. All grilles are made in the USA.

For more information, contact [goindustries.com](http://goindustries.com) or call (800) 527-4345.

If you're looking for an easy, low-buck option to improve the intake on your 2011 Duramax, aFe filters might have the solution. Their drop-in filters for the LML Duramax are washable and reusable and have a limited lifetime warranty. The unique inverted cone design allows for maximum flow over factory replacement filters. Available with a deep-pleat two-layer progressive cotton gauze media, a deep-pleat two-layer synthetic media, or a deep-pleat seven-layer progressive cotton/synthetic hybrid media for maximum filtration, the aFe replacement outflows factory filters by up to 44 percent.

For more information, contact aFe at (951) 493-7155 or visit [afepower.com](http://afepower.com).

3. Zone Offroad is now shipping their 2-inch lift and leveling kits for '02-'05 Dodge Ram 1500 4x4s. With the right tools, just \$99, and about an hour of your time you can finally get your truck level and easily clear a 285/70R17 tire. Zone Offroad CNC machines these torsion bar keys out of solid steel to create bulletproof parts. The key index is designed to consistently lift Ram trucks with the torsion bar adjusters in the OE position. Complete and detailed installation instructions are included.

For more information, Go to [zoneoffroad.com](http://zoneoffroad.com).

Superchips newest Dodge Diesel Racing Tuner is designed exclusively for competitive environments including drag racing, sled pulling, and closed-course road & trail racing. The tuner maximizes performance for '07-'09 6.7L Cummins-powered trucks with an automatic transmission. The tuner includes four high-performance tunes that can be used with and without a modified free-flowing exhaust and add up to 136 hp and 299 lb-ft of torque. Another extreme Redline tune is available exclusively from Superchips that can add up to 181 hp and 422 lb-ft of torque. Other features include speed limiter adjustment, rev limiter adjustment, diagnostic read & clear, and performance monitoring including quarter-mile timing.

For additional information, call (407) 585-7000 or visit [superchips.com](http://superchips.com).
